

Value Series GPS/GSM Multi-band Mobile Antennas from PCTEL

GPSGSMMMMMSMA

GPSGSMSMMSMA

Now available!

PCTEL's GPSGSM series multi-band omnidirectional antennas include AMPS, GSM 800, GSM 1800 and GPS L1 frequencies in a very cost effective design. They are ideal for taxi, commercial delivery or limousine voice, navigation and vehicle tracking applications!

Both permanent through-hole (**GPSGSMSMMSMA**) and magnetic (**GPSGSMMMMMSMA**) mount models are available. The permanent mount model includes adhesive VHB tape to provide a strong seal to the vehicle's surface. The magnetic mount model also includes adhesive VHB tape to allow permanent mounting when a no-holes mounting solution is required. Both models are offered standard with SMA plug terminations. Other connector options are available.

GPSGSMMMMMSMA (magnetic model) **list price** (MAXRAD1) \$49.84
GPSGSMSMMSMA (through hole model) **list price** (MAXRAD1) \$49.84
